

STATISTICIAN

Statistician

To support the development and manufacturing of vaccines, Bavarian Nordic is recruiting a statistician for Manufacturing Development. We are a team located in Kvistgaard, Denmark and Munich, Germany. This position is preferably located in Kvistgaard.

Boost our team

You will be part of a global and fully integrated vaccine company committed to improving and saving lives through innovative vaccines. As a member of the statistical team, which cooperates with teams from across Bavarian Nordic, you provide support in non-clinical statistics and data analysis.

The statistical team like to share their knowledge and brainstorm solutions and methods for a task. We hold bi-weekly meetings where we take turn presenting what we are working on. We are in the process of adapting a more systematic approach to our statistical analysis, which we hope you will be a part of.

The team works partly at home, most of us are working in the office 1-2 days a week, but we reach out to each other when there is a need.

This is how you impact the people we are here to serve

Our vaccines make a real difference to people, and no matter your role we all contribute to protecting lives every day. This is how your work matters:

Your tasks will be diverse and require knowledge of statistics, mathematics and process understanding. Furthermore, you will work with our regulatory department on related documentation and submissions to health authorities.

- Providing statistical guidance and assistance to scientific research team members and to production.
- Provide statistical support to Shelf-life calculations and specifications.
- Responsible for control charts and report of those and provide guidance of process monitoring.
- Participating in writing statistical reports, regulatory submission documents and providing support for meetings with health authorities
- Participating in writing quality documents like SOP's (Standard Operating Procedures).

Join Bavarian Nordic a fully integrated vaccine company focused on the development, manufacturing and commercialization of life-savings vaccines.

Questions regarding the position

Tinna Hliðarsdóttir Kornum
Manager for Statistical Support
thko@bavarian-nordic.com

- We mostly use JMP, SAS, and R as statistical software in the team. But we are not limited to these software.

Are you our next pioneer?

Succeeding with our vision of becoming one of the largest pure play vaccine companies in the world is no walk in the park, and that is why we need people like you who are determined to make it happen and have the following qualifications:

- MS in Statistics, Mathematics, Engineering Science or related area.
- Good knowledge of statistical methods and tests in general (linear regression, mixed models, variance analysis)
- Good communication and writing skills in English
- Previous professional experience and/or GMP knowledge is an advantage but not necessary

We are looking for you with an open mind and willingness to learn. To succeed in this role you will need to be change-orientated, structured, and with good cooperation skills. Finally, good communication skills are vital for this role - also to scientists with less statistical knowledge than you.

For us, it is all about improving and saving lives

Improving and saving lives through innovative vaccines is at the heart of what we do in Bavarian Nordic. We are a fully integrated vaccines company focused on the development, manufacturing, and commercialization of life-saving vaccines, and our vision is to become one of the largest pure play vaccine companies in the world.

In Bavarian Nordic, we believe in the power of the team, and you will be part of a global team of 1300 dedicated people with diverse backgrounds and viewpoints who are bound together by our commitment to protect lives every day. We believe in creating an inclusive and flexible workplace with a strong focus on personal and professional development, because we need each other to take things further.

We operate in a world in constant flux and always explore new opportunities. So, if you are open-minded and have the willpower to succeed, we might just be a perfect fit.

Caught your interest?

If you are interested in the position, we look forward to receiving your application via our recruitment system.

If you have any questions regarding the position, please reach out to Tinna Hlíðarsdóttir Kornum on +45 21 30 71 73 or e-mail: thko@bavarian-nordic.com

Founded in 1994, we have more than 25 years of experience in developing life-saving vaccines. We are a global leader in smallpox and mpox vaccines. Our commercial product portfolio contains market-leading vaccines against rabies and tick-borne encephalitis and an Ebola vaccine. We are a global company headquartered in Denmark with a state-of-the-art production facility and sites in Germany, Switzerland, and USA. Our values - our Bavarian Nordic DNA, as we like to call it - is what guide our actions every day. We act as persistent pioneers, embrace change, value being boosted by the team, and believe in protecting lives every day. If that is also a part of your DNA, we invite you to join us in Bavarian Nordic! Bavarian Nordic is an Equal Opportunity Employer.
