Argenx
Ghent, Belgium

Dear Hiring Manager,

Ref: Biostatistician

I am writing to express my interest in the Biostatistician position available on your website. I have an MSc. in Biostatistics (UHasselt), a PhD in Statistics (KU Leuven) and have worked as a statistician in medical research and in the pharmaceutical industry. I have accumulated more than four years of applied statistical experience across the two stints. I am interested in joining Argenx because I am passionate about using statistical skills to help better the future of patients around the world.

In my experience as a statistician, I have gained expertise that closely aligns with the profile outlined for this role. I have worked on clinical cohort studies in medical research, I understand statistical methods applicable in clinical trials and I am proficient in SAS and R. I have no doubt that the combination of my previous experience in medical research, experience in the pharmaceutical industry and strength as a statistician will enable me to deliver on my responsibilities and will be a valuable member of your team in the long run.

Accompanying this letter is my CV which enumerates my strength as a statistician as well as other skills that are relevant for the role. I would be delighted to be considered for an interview to learn more about this position and share my motivation for working with your team.

Sincerely,

Maaya, Leonard
