About the role

Internal Job Title: HTA Statistician (m/f/d)

Location: Munich or Nuremberg, Germany

The position is advertised for multiple positions.

#neworggermany

The position:

As an HTA Statistician, you will work in a cross-functional dossier preparation team and accompany our projects from start to finish. You will be responsible for the statistical-methodological aspects and tasks related to the creation of AMNOG dossiers, present the results to internal stakeholders and external customers and be actively involved in developing strategic decisions.

This position is part of the Health Economics & Outcomes Research Team and reports directly to Head HE&OR.

Your responsibilities include:

- Biometric assessment of studies with regard to their methodological quality

Commitment to Diversity & Inclusion

We are committed to building an outstanding, inclusive work environment and a diverse team that represents the patients and communities we serve.

Role Requirements

What you bring to the position:

- Degree in mathematics or statistics or equivalent experience
- safe handling of SAS
- Very good knowledge of statistical procedures and the methodology of clinical studies
- Good knowledge of German and English, both spoken and written
- Experience with clinical trials,
- systematic way of working, analytical thinking and attention to detail
- Ability to work in a team and confident demeanor, strong communication skills

Additional qualifications

- Knowledge of HTA/benefit assessment

Why Novartis?

Our goal is to reshape medicine to improve and extend human lives. Our vision is to become the most valuable and trusted pharmaceutical company in the world. How will we achieve this? With our employees. It is our employees who drive us every day to achieve our goals. Become part of this mission and this great team!
