25th November 2023

AIXIAL BELGIUM,

Chaussée de Charleroi 112, 1060 Brussels Belgium

Dear Hiring Manager,

Ref: Non-Clinical Statistician

I am writing to express my interest in the non-clinical statistician position available on your website. I have an MSc. in Biostatistics (UHasselt) and a PhD in Statistics (KU Leuven). I have worked as a non-clinical statistician in the pharmaceutical industry and also have transferable experience from medical research and academic areas whose skills will be useful for this role. I am interested in joining your esteemed team so I can play a part in supporting clients' projects and ultimately improve people's health.

I have a strong understanding of statistics from my training as well as my past experience. I am also immediately available, flexible and eager to learn and apply newer statistical methodologies as this specific position may require. I have transferable skills like providing statistical support to non-statisticians, knowledge of multiple models applicable in non-clinical statistics, working in a highly regulated environment, design of experiments, preparing SAPs, setting up, monitoring and analyzing projects that will be handy for this role. I am proficient in R, SAS and JMP statistical softwares. I would be delighted to expand my skills at Aixial Group to play a part in improving people's health across the globe.

Accompanying this letter is my CV which enumerates skills that are relevant for the role. I would be delighted to be considered for an interview to learn more about this position and share my motivation for working with your team.

Sincerely,

Maaya, Leonard

Maaya Leonard Wafula

Leuven, Belgium | +32 485 128 211 | lwafulae@gmail.com

PROFESSIONAL SUMMARY

A statistician interested in contributing to solutions to health-related problems across the world. History of continuous knowledge seeking to advance the theoretical knowledge and practical application of statistics in medical research and pharmaceutical sectors.

MOTIVATION FOR APPLYING FOR STATISTICIAN POSITION

Aixial is a company whose work I admire a lot and that resonates with my objective of giving hope to patient futures. I am passionate about using my statistical skills to improve people's lives globally through evidence-based research and development. I believe that I will achieve these objectives while at Aixial Group given your reputation in the areas you operate in.

WORK EXPERIENCE

Statistician

July 2023 -

ORSTAT, KU Leuven, Belgium

- Provided statistical support to quantitative and non-quantitative clients
- Supported teaching courses by preparing and monitoring availability of availability
- Conducted research to support requests from ORSTAT clients
- Participated in seminars and workshops for discrete choice models
- Part of the organizing team for the workshop on discrete choice models
- Coded R programs for individualized data processing, statistical analyses and generation of feedbacks for students taking online courses

Non-Clinical Statistician

June 2021 - May 2023

Janssen Pharmaceutica, Beerse, Belgium

- Performed simulation studies and sample size calculation
- Performed statistical analyses for process, method & equipment development
- Performed Bayesian analyses for process performance qualification and optimization
- Supported the compounding & dilution techniques for vaccines
- Provided statistical and programming expertise in equivalence studies
- Reviewed statistical methods
 - Design of experiments (Extended Youden Design)
 - Bayesian & double-bootstrap approaches for tolerance intervals
 - Probability-based equivalence tests
 - Bayesian & bootstrap approaches for the F2 statistic for analyzing dissolution profile similarity
- Conducted analyses to determine the shelf-life and stability of vaccines
- Performed Bayesian-based analyses for estimation and PoS determination
- Worked with and coordinated the work of CROs
- Wrote (and peer-reviewed) statistical reports (from colleagues)

Statistician

January 2013 - October 2015

Kenya Medical Research Institute - Wellcome Trust Program, Kilifi, Kenya

- Conducted statistical analyses for epidemiological studies in the department
- Contributed to scientific publications through statistical analyses
- Performed clinical, lab & epidemiological data management for five studies

EDUCATION

PhD in Business Economics: Operations Research and Statistics May 2021
Katholieke Universiteit Leuven, Belgium
Topic: Modeling the Impact of Labels, the Dynamics in Attribute Non-Attendance and the Dropout in Discrete Choice Experiments

Master of Science in Statistics August 2017
Universiteit Hasselt, Belgium
Distinction

Bachelor of Science in Statistics August 2012
University of Nairobi, Kenya
First Class Honors

SEMINARS, WORKSHOPS AND CONFERENCE PRESENTATIONS

Scientific Research Network on Choice modelling, KU Leuven September 2023

Non Clinical Statistics Conference, Louvain-la-Neuve, Belgium October 2022
Simulating the drug substance to drug product conversion process in vaccine manufacturing

Second Doctoral Seminar September 2020
Joint Analysis of Preferences and Dropout Data in Online Choice Experiments

XIV. International Research Conference, Vancouver, Canada August 2020
E-Consumers' Attribute Non-Attendance Switching Behavior: Effect of Providing Information on Attributes

First Doctoral Seminar October 2019
Consumers' Attribute non-attendance switching behavior in Discrete Choice Experiments

Royal Statistical Society of Belgium October 2019
E-consumers' dynamic attribute non-attendance behavior: The effect of providing extra information on attributes

WOG Workshop on Choice Modeling, Brussels June 2019
E-consumers' dynamic attribute non-attendance behavior: The effect of providing extra information on attributes

12th Belgian Environmental Economics Day 2019, University of Antwerp February 2019
Effect of environmental and altruistic attitudes on willingness-to-pay for organic and fair trade coffee in Flanders

SHORT COURSES

Pharmalex June 2021
Assay validation in JMP

KU Leuven June 2018
Optimal and Orthogonal Design of Experiments

University of Leeds
Choice Modelling and Stated Preference Design summer course

June 2018

University of Leeds
Choice Modelling and Stated Preference Design winter course

November 2017

KEMRI-Wellcome Trust Research Program
Good Clinical Practises - GCP2013

November 2013

SKILLS FOR THE NON-CLINICAL STATISTICIAN POSITION

- Experience as a non-clinical statistician in the pharmaceutical industry
- Experience with Bayesian statistical methods, mixed models, multivariate methods
- Proficiency in statistical software (R, SAS, JMP)
- Understanding of Quality by Design thinking and Design Space methodology
- Experience in Design of Experiments for process, method & equipment development
- Experience working in ICH (for vaccines) & ASTM (for small molecules) framework
- Practical understanding of statistical modelling used in health economics settings and application to real world problems
- Liaising with statistical programmers and other statisticians on studies
- Experience in effective visualization of data to non-statisticians
- Generating web-based reports using the R-Shiny application
- Experience of working in multidisciplinary team settings
- Experience in designing and managing studies
- Experience of working in a GMP environment
- Experience working with and coordinating the work of CROs
- Excellent communication skills to quantitative & non-quantitative colleagues
- Strong academic performance and scientific publishing
- Knowledge of variance component & multivariate analyses for machine learning
- Willingness and ability to learn and apply newer statistical methodology
