

# Statistician

## Job description

Do you have a passion for developing data-driven solutions and promoting the use of statistical methods? Do you enjoy collaborating on optimization and improvement projects?

If so, you could be our next Statistician. Apply now and join Novo Nordisk!

### The position

You will become a part of an Injectable Finished Products (IFP) Manufacturing Development (ManDev), Product and Data Support Department. You will work in a highly collaborative team that supports and helps each other reach great results.

Your main tasks will be to:

- provide statistical support to Process Experts, Project Managers, and other stakeholders
- drive or participate in data science-based optimization and improvement projects
- enhance the use of statistical methods such as: Mixed Models, Statistical Process Control etc. and general explorative statistics
- collaborate with various stakeholders
- analyse global data

Together with the team you will be focusing on understanding statistical issues, as well as sparring during the development of statistical solutions. Once the issues are resolved you will be responsible for communicating the conclusions.

### Qualifications

We are looking for someone who can effectively work in a team and collaborate with professionals from various backgrounds. Our ideal candidate should be able to identify opportunities for data-driven improvements and innovations within the company.

To succeed in this role, you have:

- M.Sc. or Ph.D. in Statistics, Engineering, Mathematics, or other STEM fields; recent graduates are encouraged to apply
- At least 2 years of experience as a statistician within applied statistics, preferably in GMP environment or highly regulated industry
- Experience with SAS for Windows and JMP is an advantage
- Experience within the area of Data Science or Programming is an advantage
- Professional proficiency in English

On a personal level, you have a positive can-do attitude and enjoy collaborating with others. You are a great communicator who can convey complex ideas to both technical and non-technical stakeholders. You demonstrate a strong ability to work independently, taking initiative and ownership of projects, while seamlessly collaborating within a team environment. We are looking for a service-minded professional who can build relations cross-functionally with departments globally. You will be working with a highly experienced team and will be provided with opportunities to develop your skills.

### About the department

Products & Data Support is part of ManDev Site Support & Improvements, which supports our global IFP production sites in manufacturing injectable products and sets the direction for new technology, innovation, and production optimization. A high level of knowledge and process understanding is anchored in the department. The department consists of four teams: Stability, Biophysical characterization, Requirements and Complaints, and Statistics & Data Science.

As our new Statistician, you will be welcomed to a team and GMP environment consisting of 8 Statisticians. We are an inclusive and driven team known for delivering solid results that help drive the success of Novo Nordisk. We value creativity, innovation, and the ability to work with people from different backgrounds and share a relaxed tone and high ambitions.

Our department takes pride in offering employees a flexible workplace and ensuring everyone has a good work-life balance.

### Working at Novo Nordisk

At Novo Nordisk, we don't wait for change. We drive it. We're a dynamic company in an even more dynamic industry, and we know that what got us to where we are today is not necessarily what will make us successful in the future. We embrace the spirit of experimentation, striving for excellence without fixating on perfection. We never shy away from opportunities to develop; we seize them. From research and development to manufacturing, marketing, and sales – we're all working to move the needle on patient care.

### Contact

For further information, please contact Rebeca Quinones (Associate Manager) at +45-34488872 and/or Byurakn Ishkhanyan (Statistician) at +45-30796007

### Deadline

05 December 2023

Please note, applications will be reviewed, and interviews will be conducted on an ongoing basis.

You do not need to attach a cover letter to your application, but please include a few sentences about why you are applying in your resume or CV. To ensure an efficient and fair recruitment process, please refrain from adding a photo in your CV.

We commit to an inclusive recruitment process and equality of opportunity for all our job applicants.

At Novo Nordisk we recognize that it is no longer good enough to aspire to be the best company in the world. We need to aspire to be the best company for the world and we know that this is only possible with talented employees with diverse perspectives, backgrounds and cultures. We are therefore committed to creating an inclusive culture that celebrates the diversity of our employees, the patients we serve and communities we operate in. Together, we're life changing.
